

Ladies and Gentlemen of the FCC:  
Please reject NAB's petition 04-160  
I listen to sattelite radio because it offers me a choice of listening what I  
want to hear, not what the stations want me to hear.  
No foul language, no offcolor jokes, no commercials...just high quality radio.  
If the NAB wants to compete with sattelite radio then let them improve their own  
programming, not attack the sattelite stations.  
Please reject NAB 04-160.

Thank you

Carol Fifer
